

Aquagen System Overview

Features

- Portable, Compact, Rugged
- UV Sterilisation
- Reliable Design
- Customisable for Specific Source Water
- Australian Designed and Manufactured

Output	Salt Water	90 Litres per Hour
	Raw / Fresh Water	150 Litres per Hour
	Dissolved Solids	< 600 mg/L
	Turbidity	< 0.3 NTU
Input	Inlet water	Up to 45,000 mg/L TDS (Sea Water)
	Power Supply	230V 10A AC - Standard 10A household plug
Features	Multi Stage Filtration	Micro Sediment Filtration + Activated Carbon + Sea Water Reverse Osmosis
	Built in Sterilisation	UV Sterilisation
	Internal Pump	Duplex Stainless Steel High Pressure Pump
	Water Quality Sensors	Outlet TDS Temperature Monitoring
	Control System	Power, Quality Monitoring, Autonomous Regulation
	Dimensions	710 x 430 x 350 LWH (approx)
	Weight	< 40 Kg
	Accessories	3 x 3m water hose, fittings, supply pump
